# **Coal Combustion Residuals Ash Pond Liner Determination**

**ELMER SMITH STATION  
OWENSBORO MUNICIPAL UTILITIES**

4301 State Route 144  
Owensboro, KY 42303

10/17/2016

40 CRF 257.71(a) requires that the owner or operator of an existing CCR surface impoundment document whether or not the unit was constructed with a liner meeting certain standards. To the best of our knowledge, the ash pond at the Elmer Smith Station was not constructed with and does not have an engineered liner of either compacted clay or a composite liner.
