**INVITATION TO BID**

Owensboro Municipal Utilities will receive sealed bids until 2:00 P.M. (CST) on January 3, 2019 (prevailing time) at which time bids will be opened and read aloud for the:

**BID No. 19-01-001  
TRANSMISSION POLE REPLACEMENT**

Owensboro Municipal Utilities, a municipal power distributor, is requesting bids for the labor and equipment to change out sixteen (16) transmission-class tangent poles ranging from 75ft to 85ft in length. This is **NOT** a reconductor job. All existing poles to be replaced are wood; all new poles will be steel and provided by OMU along with all other necessary materials. These poles support a variation of one or two 69kV transmission line(s) and one or two 15kV distribution under-build line(s). There is also numerous telecommunication attachments on several of the poles. All 69kV lines will be de-energized throughout the project; however, portions of the 15kV distribution under-build line(s) will have to remain energized resulting in several of the pole replacements being considered 15kV HOT work.

Prospective bidders may obtain copies of the bid documents and specifications by sending an e-mail with your Company Name and a brief description of your business. Contact Derek Price, Buyer, via e-mail: [pricedm@omu.org](mailto:pricedm@omu.org).

*OMU reserves the right to reject any or all bids and to waive irregularities.*
